Question 22 (continued)

(c) Explain ONE economic and ONE social cost created by unemployment. **4**

- An Economic cost of unemployment is Social Security benefits which costs our country also the cost of Job Search and retraining schemes operated by the government to retrain and further educate the unemployed.
- A social cost can be the personal distress felt by the unemployed. Unemployment can lead to boredom and sometimes criminal activity for personal gain and drug or alcohol abuse. These things also lead to economic costs for the Nation.

(d) Explain how TWO economic policies could be used by the Australian Government to reduce the level of unemployment. **4**

By using the FISCAL policy the government is able to redistribute income
