

Image = "The Truman Show" by Peter Weir.
What have you learned about Image
through your study of this module?

Through the study of ~~the~~ Image in
one of my modules I've come to
realize that everything around us is
not exactly the whole truth it can be
fabricated very easily. The movie
called "The Truman Show" by Peter
~~Weir~~ Weir open my eyes and gave
me understanding of how easy it is
to make ~~an~~ a place which ~~is~~ has no
contense of truth in it, make it look
realistic
for one person ~~real~~ and make that
person believe his ~~to~~ whole life he is
been living in is real. ~~to~~ Although ~~Truman~~
Truman's world is full of foney actors
and props in our world today what
seems to be real to us is only

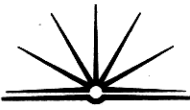

the art of an artist behind his masterpiece, ~~this point~~ ~~there's~~ the conclusion of this point came from a picture of Brad Pitt and his new wife ~~Jeff~~ Jennifer (wedding photo found in "the Sunday Herald" last year) as the photo looked like it was taken unexpectedly on their wedding day and a little you know underneath the photo there is an article telling us that it's all been done with mirrors.

~~The~~ The Truman show is a show that Christoph produced and it was designed for the audience of Truman show ~~be~~ merely for entertainment. Although the show's producer Christoph was convinced that he wasn't doing anything wrong morally or physically in the ~~open~~ true talk show that he was invited to give a statement in he tries to convince

the second audience that "everything on the show is real just nearly controlled." "There is nothing fake about Truman him self".

These quotes state that Christof wasn't really looking at the fact that he was fabricating Trumans life he saw him self as a creator/Artist. Sing of Artist is the hat he wore on the show. Creation part and God like figure is the place the control room was in the moon and that is where he lived. In the opening scene we see a ~~eye~~ zoom of christof's face in the middle of the frame of the camera suggesting that he is in control and a quick zoom away from his face onto Truman straight away telling us that he is in control of Truman, Truman is

over powered by ontistaf.

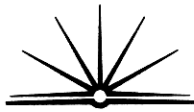

In the film we can see through the actors that Trumans world is fake as the actors lack real, genuine emotions. This is shown mostly through Trumans wife ~~Marilyn~~ as she tries to do a commercial product placement Coco scene, this scene was done while Truman was trying to have a real discussion with his wife.

To the ~~3rd~~ third audience which is us we see the ~~artificial~~ fabricated world the most that Truman lives in through the Bridge scene. As Truman tries to open up to his best friend Marol he is quickly convinced through Marol that he is only being manipulated with

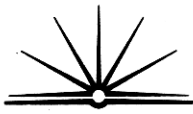

himself. Marol assures him ~~that~~ through his speech which we see Christof is saying not Marol he states "if everyone is in on it I will ~~be~~ have to be in on it to, but I'm not there is nothing to be on with". ~~The~~ The camera which Christof orders to zoom in on Marol's face while he is saying that and Marol tries to cry to give feeling of real emotion. Christof as well in this scene orders ~~the~~ "baton camera to be put in place", "easy on the mist; ~~and~~ fade the music". All signs of how much control he has over Truman's environment and how fake his world is exactly.

The ~~the~~ Truman show through this has gave me the impression

easy it would be for someone to fabricate our lives and to hide the truth from us.

In our world today image, looking good is becoming everything this is an example of the photo of Brad Pitt on his wedding day. The photo before it went on to the news paper ~~to~~ it had been drafted ~~at~~ four times. Brightening the texture of the photo, giving more life to his wife and Brad Pitt. ~~how~~ The ~~a~~ mirror affect made their faces glow as the camera angle shot showed the side of their faces this was done on purpose as Jennifer's best style shot photo is on ~~a~~ a angle and Brad Pitts is on a ~~side~~ side.

Something that we see
as audience or viewers is not
what ~~it~~ is in reality we
see what media wants us
to see.

Image is everything to those
who are in the media spot light
and those images reflect on our
society. we see models with
perfect bodies, what do we
want? of course the same things.
