Dear Maim,

I am writing to you to express many views and opinions I have on recent conclusion of your poem Cicada's. I would first like to congratulate you on the excellent talent you manage to ~~rep~~ boast in the poem, ~~with~~ ~~creating images~~ ~~with~~ ~~your~~ taking the audience on a realistic and enjoyable journey witnessing a cicada change life form. I also have to wonder how you manage to create such detailed imagery ~~and~~ ~~to~~ in our minds as we read such sentences as 'ture your hollow body to the sounds of summer'. In all honesty, I will have to

admit that my interest in your poem runs deeper than just enjoying ~~the natural~~ <sup>your</sup> views on the natural environment and changes that occur in this. I am also a recent mother of a beautiful baby girl and to me I seemed to take on a different life form myself after having my baby Crystal. I now see things different. Although this doesn't seem relative to your poem, the poem sparked an interest inside of me about change and how everything changes. I thank you for that.

Yours Sincerely
