| Question 17 (7 marks) | |
| (a) Using Sources A and B, calculate the percentage of Brazil's population living in Sao Paulo in the year 2000. | 1 |
| $\begin{array}{r} 178\,00\,000 \div 165\,405\,000 \times 100 \\ = 10.76 \% \end{array}$ | |
| (b) Using Source A, identify TWO features of the population pyramid that make it typical of a mega city in the developing world. | 2 |
| <p>.....
Broad base (High percentage of children)
..... indicates high popn. growth
..... Narrow tip (low percentage of elderly) poor health care etc.</p> | |
| (c) Describe ONE health issue and ONE social issue that a mega city in the developing world could face in the next decade. | 4 |
| <p>Health issue High levels of HIV aids
..... as the virus spreads easily throughout
..... uneducated poor populations.</p> | |
| <p>Social issue Unemployment - mega city's slowly
..... increasing in high skilled workforce, un
..... educated & untrained people will be left
..... behind. Unemployment often leads to crime.</p> | |
