Section II (continued)

Marks

Question 19 (7 marks)

- (a) Using Source I, describe the spatial pattern of the global production of oil in 2000. 3

Oil production is distributed all over the globe, with the majority being from the Middle East where the concentration of oil is very rich and pure. Oil is found on all ^{major} continents of the world but the amount is not as evenly distributed as far as concentration is concerned.

- (b) Describe TWO factors influencing the future direction of a global economic activity you have studied. 4

The activity of viticulture (wine industry) is influenced by many factors. Two of these being technology & consumption trends. Technology is advancing at a very high rate. The ability to bio-genetically modify grapes is becoming very common and very efficient. Consumption trends differ from country to country. The increase and decline of wine consumption is always a major factor influencing the wine industry's future.
