

World cities have the ~~main~~ industrial area, Commercial area, and global networks with out world cities

these networks would not communicate giving these networks no business

With no business to some of ~~the~~

these Companies' the global networks

would fall out of place creating

other businesses and Companies

to lose sale, go bankrupt.

without these global networks the

~~the~~ the cities economic sustainability

would fall and the global economy

would not exist and creat abt

of people without work, not being

able to support there families

and living in poverty.
