

### Section 3

Q21. London, Paris, New York and Tokyo are the head world cities. The role of the world cities within the global networks are the base for many large companies. The world cities have the head base offices for ~~the~~ major TNC's there. The world cities also lead in telecommunication, the base for finance, ~~and~~ stock market and cultural influence. With Wall st. in New York, Broadway in London ~~and~~ the heavy technological influence from Tokyo and the fashion in Paris. With the world cities monopolizing the world's trade, with New York having 58 based TNC's, Paris 51 TNC's, London 63 TNC's and Tokyo with 80 of the world top 300 TNC's. These top world cities are now trading in imports & exports with other cities and countries & not ~~so~~ <sup>as</sup> much with each other. The other cities such as S/E Asia are now producing NIE's. The world cities are now trading with other countries due to the more profit they

continued.

make and the lower costs

The role of the world cities are now just  
the base of <sup>major</sup> head offices and cultural influence.
