

(ii)

Soon after Speer had replaced Toedt as minister of armaments after Toedt died in a plane crash, Speer had ~~no~~ no knowledge of war yet he worked hard to produce the planes, tanks & ammunition which Germany required. From 1943 the tide turned against Germany with massive allied bombings & the invasion of Italy through Africa, the allied equipment was improve while the Germans continue to build slow, large planes & tanks under the order of Speer

In 1945 Germany had lost, Hitler had ordered the scorched earth policy which Speer had refused, the destruction of all factories would

not benefit anyone in years to come.

Hitler was the ~~one~~ only Nazi to plead guilty at the Nuremberg trials, he was sent to jail for 20 years.
