Part B – 40 marks

Attempt Questions 21–26

Allow about 1 hour and 10 minutes for this part

Answer the questions in the spaces provided. These spaces provide guidance for the expected length of response.

Question 21 (8 marks)

- (a) Outline TWO socioeconomic determinants that contribute to health inequities experienced by Aboriginal and Torres Strait Islander peoples. 3

wage rates - Aboriginal and Torres Strait
islanders weekly range is ^{averaged} around \$300-400 a week
compared to Non indigenous is averaged at the \$600 mark.
This disadvantages ATSI as it limits them to certain health
care services and products.

employment - ATSI less likely to be employed and therefore
completely limits expenditure on health care, reasonable housing
~~and~~, education and nutritional foods.
