

**Question 1** (6 marks)

- (a) Identify an aspect of a gender role and how it has changed over time.

"women in the kitchen" ~~Most women~~  
The majority of women are not just  
"housewives", but they have full time jobs.  
In a lot of households its the father  
who stays home to cook & clean while the mother  
goes to work. This trend has only become popular over  
the last 20 years.

- (b) Evaluate the impact of society's expectations of gender on your own personal experience.

I believe society's expectation on  
women is far too strong. The society  
expects women to be beautiful, thin,  
fashionable, well mannered, balance a  
career /full time job as well as be a  
mother and a housewife. These kind of  
expectations are unreasonably unreachable  
for one single woman alone, let alone a  
whole society.
