

Question 1 (6 marks)

- (a) Identify an aspect of a gender role and how it has changed over time.

Women were once expected to stay at home ~~and~~^{to} raise the children and do domestic chores, yet women are now ~~at~~ working, some in jobs that were once male oriented.

- (b) Evaluate the impact of society's expectations of gender on your own personal experience.

Society still expects women to raise the children, yet many mothers now work and send their child to day-care or preschool. Although women are in the workforce, it is still evident that males are dominant in higher jobs, such as regional manager etc because society expects it that way.
