

Question 3 (6 marks)

Name ONE theory of social change Globalisation

With reference to a country you have studied, evaluate how your chosen theory of social change helps you to understand ONE feature of continuity and ONE feature of change within that country.

~~Q3~~ In Japan globalisation helps me to understand one feature of continuity by showing me that traditions, beliefs and morals are a strong part of this culture. For example, traditions in Japan consist of Tea ceremonies and Calligraphy. As globalisation has become a big thing in Japan there are still the traditions that remain. One feature of change within Japan is the changing gender roles of men and women. Globalisation in Japan has help women to be treated more equally as women are now able to go out and get jobs and marry for love instead of arranged marriages, as these were not present in earlier years. Women are now able to have roles in decision making on a more equal scale with men.
