

Section 2 - Depth studies

Question 7 - Equality and difference.

A) The effects of technology, discrimination and socioeconomic status on ~~the~~ women are ~~in~~ very high,

In the 1970's women's liberation movement began, and this was the start to ~~off~~ equal opportunity for all women.

This meant that women all ~~over~~ over the macro world, could now be able to have equal rights & opportunity as men.

Throughout the work place, women were given less pay,

~~A less of a~~

less equal rights, to ~~men~~ men,
even though they were doing
the same ^{were} ~~as~~ ^{as} men were.

This led to the different
types of ~~gender~~ discrimination
which was placed down on
women.

The discrimination started
from the work place to the
home and then to the
field. Women in sport were
highly discriminated against
and were not considered
as ~~athletes~~ athletes.

The effects of technology
based on women, and their
equality and different changed

As now women, ~~to~~ have the power and technology to run large numbers of organisations around the world to fight for women's rights and their ~~diff~~ discrimination. ~~their~~ concern resources have helped women to fight for what they believe in the way they see the world to be a ~~of~~ equal place.

The socioeconomic status of women in the work place and out of the work place ~~can~~ can vary, ~~as~~ as your class and the hierarchy ~~can~~ can determine your socio-

- economic status in the world.

Discrimination towards women was also based on the socioeconomic status, if they were high ~~up~~, in ~~in the~~ status their opinions and work would be considered but if your status was ~~low~~ low, your opinions and rights were not considered at all.

~~Although many new many~~

Although new things have changed and as technology is changing, so is discrimination and socioeconomic status on ~~women~~ women.
