a) ~~Islam has been open the subject to assumptions and stereotyping in the world. been made upon the religion~~

c) Islam throughout recent years has been the subject to many assumptions and stereotyping been protrayed throughout the world. Islam most recently after the September 11 attack in 2001 has been associated with acts of terror, supression and war. It is the worlds lack of knowledge and ability to quickly point the finger before thinking that has caused much dish & pain and anguish as Islam remains the centre for todays conflict.

Islam word as stated as by Allah in the Qur'an, Islam is a religion that brings about peace. Allah is against ethicahand discrimation of race anda that continues to display images of the need to love and bring peace to all. Its is man perceptions and muslims abuse of power that has caused strife and injustice to the true Islam way of life.

Muslims men abuse as and suppression of women has caused outrage among the outside world. This remarks to Although muslim men. The Qur'an states that women and men are diffrent and hold different roles in the

that make up the shari law and cause this conflict
and confliction upon women and their human
rights.

The relationship to peace and woman conflict in
the world is one that continues to be of high
importance in the political worldviews. It is
the differing views of muslims that could determine the
future of islam and the way it will be perceived
in the world. For example a muslim, To Talbi
Talbi believes that islam needs to have dialogue
and learn and from values from other
non muslim countries that will help bring
peace and co-existence into the future in the
world. However another muslim Al-Tabwasmi
believes that islam should not collaborate and
express dialogue but rather be
separate from non-muslims that could
lead the islam continually being an
instrument for conflict.

Everyone of us can play a part in the relationship
between peace and conflict within islam.
