

Start here.

a) Work is the thing you have to do for money, leisure is the thing you do during the free time for hobby.

b) The technology developed the range ~~of~~ <sup>to enjoy</sup> leisure. Not only need to do leisure ~~by~~ physically, people can ~~to~~ ~~to~~ do leisure games at home with TV or COM and ~~also~~ can enjoy the favourite leisure programs on the TV. Also, can read ~~about~~ news about the leisure on Cyber news website on COM Internet or mobile phone.

c) ~~#~~ With development of technology ~~the~~, people can do their work at home with mobile phone (with special software), or Computer. It became more convenience to carry and research for information. So, it improved quality of work.

Also people can do work and leisure in the same time. Forexample, while doing the work they can watch TV programs or when they are out for sports they could do their work with laptop, mobile phone.. I think in the future some company ~~will~~ will product a simulation game, which can do their work with fun. their ~~task~~ <sup>work</sup> becomes the task of game and

Solve it ~~by~~ in different ways.

like... For example if somebody have to invent something.

In the game it shows various of random products  
and you can mix and match product in the  
game and it provides ideas.
