## Equality & Difference

Mainly existing inequalities amongst the Aboriginal people will continue to have a negative impact.

They ~~don't~~ ~~get~~ the same ~~benefits~~ ones living in rural areas ~~in~~ south of Perth and Alice Springs etc aren't getting the same benefits as Aborigines or white Australians which if kept that way it will cause shame to the country and keep it unfair.

Aborigines in the rural areas don't get the healthcare, fair legal system, they don't have jobs they don't have transport to get them anywhere and even if they did, they have a low chance of getting employed.
