The artist, Gabrielle Minter has used natural earth colors to express her experience^{of the world} in her painting. The calmness, peaceful scene of the earth expresses her views of the world.

The church represents a bit about herself; that she's religious and likes peace. The orange and brown trees ~~are~~ ~~to~~ ~~it~~ reveal that it is autumn and the sky ~~is~~ looks as if it ~~is~~ dawn. Gabrielle must of had a good, peaceful experience ~~in~~ ~~the~~ of the world because in her painting ~~the~~ ~~the~~ ~~see~~ we see how the picture is surreal. It represents no hatred, but freedom.

The ~~is~~ relationships between the two artworks is that they are both big and that one is indoors the other is outdoors. Plates 2 & 3 ~~are~~ ^{are} based on real life, Plate 3 ~~is~~ based on a puppy and plate 2 based on humans, but artists have used different techniques to express, show ~~the~~ ~~real~~ live people and ~~the~~ animals. Both ~~of~~ artworks have caught the public's attention. Another relationship between the pictures is that plate ~~two~~ two is technical, ~~is~~ man made, where as plate three is ^{made of} a natural ~~in~~ ingredients.

The practice Clifford is using in the plates ~~448~~ four, five and six "has been from their ~~er~~ early days, before the European people came."

He did not get the idea, or create this practice because that technique was ~~an~~ available ever since "the dreaming" and it has carried on."
